September 2, 2016

To the Mayor, Municipal Clerk/Administrator and Town Council:

September is Library Card Sign-up Month and the Monmouth County Library is participating in this annual event. As one of the municipalities that contribute to the Monmouth County Library system, we want to keep you informed about the Library's many services and successful programs. Please find enclosed a brochure that can introduce the Monmouth County Library to your residents. The Library continues to be a place where residents of all ages gather for education, information and entertainment.

The Monmouth County Library is not only a community center but also offers residents many free services available from home to your computer, tablet or other mobile device. We also offer downloadable eBooks, audiobooks, magazines, streaming videos and access to research for school and business that library patrons of all ages can use from home and from their mobile devices—the Monmouth County Library--Library in the Palm of your Hand that is available 24/7 wherever you go.

We are sending you a PDF of this brochure so that you can post this on your website and a link to a video that describes our library services. We are also attaching a short description that provides an overview of Library services. We hope that you can use this in an email blast and put in on your website.

We thank you for your support of the Library and hope that you will encourage your residents to visit their local library.

Thank you,

A handwritten signature in blue ink that reads "Judith Tolchin".

Judith Tolchin, Director
