# Bricks 4 Kidz

## Interesting Inventions

### LEGO Motorized Model Builds

Introduce your student to the world of ideas, creativity, inventions, and patents all while building a motorized model! Each model is motorized for maximum movement and fascination! Participants will discover the origins of things like the hand mixer, windshield wipers and conveyor belts. They will discuss the difference between an invention and a discovery, learn how inventions solve problems, and find out how inventors get their ideas patented. Each week, students are encouraged to think of what they could invent, or improvements they could make to an existing object to solve a problem. So many things we use each day are someone's invention. Start creating!

**For children in grades: K—5th**

(Participants build a model according to their age level)

**6 Week Session:** Mondays, Jan 24 - Feb 28

**Time:** 4:30pm-5:30pm

**Location:** Marlboro Recreation Center - mask required

**Fee:** \$145

**\*\*Space is limited\*\***
